You can do the kahoot together- all the students (in class for example) or alone- anyway, you will need two devices: a computer to see the questions on the the screen and the mobile to mark the answers.

When you finish, take a photo of your result and post it here: [Padlet- results](#)

4. Finally, a little bit of crafting... **online ;)**

One of most significant heritage in our region are cut-outs.

In the past they were forms of decorations in traditional cottages. Nowadays they are symbols of Łowicz and their patterns can be used in different forms and on different objects:

Now, time to have fun! Since Easter, one of the most important festival in Poland is coming, how about preparing our own Easter egg with the patterns from the cut-out, just like these from the photos:

Your task is to go to the link below. Get inspired by the photos above or use your imagination and colour the Easter egg (it is not as easy as it may seem;)

the link: [CUT-OUTS](#)

When you finish click the green tick sign in the bottom left corner , write down you name and click **OK**, the image will appear in a moment. Download the picture and upload it on our padlet :)

That's it. Hope you will have fun :)

- 1. First thing to do - PADLET

[WE ARE STEAMS \(padlet.com\)](#)

This is the board to introduce ourselves: write a few words, post a photo - to do before our online meeting...

On the basis of this Padlet you will be able to get to know each other. If you find some students who have the same interests write to them in the comment below their post and ask them if they want to be with you in the group. There will be one student from each country and two from Poland in each group.

Finally, in the next subpage- Final Work Groups, Polish students will create 6 groups and write down their names. Before and during the online meeting you will create final groups by adding your names to the groups on Twinboard (remember, there is one student from each country:) These groups will work together during the mobility in Łowicz.
